

Mobile payments with Tablet, Smartphone or Fixed POS

Accept payments anywhere with **Pocket Pay**™. Once paired with your preferred tablet or smartphone, the compact MT330 PINpad and **Pocket Pay**™ app give your business an easy way to process and track transactions on-the-go. Add the optional airPay accessory for Contactless acceptance.

MT330

airPay™
CONTACTLESS PAYMENTS

The MT330 dock accessory provides a convenient and rapid charging solution for your PINpad when not in use. Add the optional AP2 contactless reader to make it even faster to accept payments using contactless cards and NFC capable devices.

BUSINESS BENEFITS

Packet Pay™

Works with:

- ✓ Connect smartphones, tablets or fixed counter POS systems via embedded Bluetooth
- ✓ Pocket sized and lightweight
- ✓ Accept card payments with PIN entry for improved security and reduced risk
- ✓ Accept contactless cards and NFC capable devices such as smartphones for faster transaction processing
- ✓ Secure Point-to-Point encryption between the **Packet Pay™** MT330 PINpad and your transaction acquirer
- ✓ Download the free Quest Packet Pay App from your preferred App Store, or integrate the MT330 PINpad with your own iOS, Android or Windows Phone App.
- ✓ SMS / email receipt direct to customer or print receipts to a printer connected to the host device
- ✓ Provide an engaging and professional level of service to your customer with a mobile POS/payment solution

SUPPORTED PAYMENT TYPES

- ✓ EMV Chip & PIN
- ✓ Magnetic stripe (Debit Cards, Stored value cards)
- ✓ Contactless / NFC (with airPay AP2 Snap-on accessory)

The **Cloud EFTPOS** web portal gives you online access to features including transaction reporting, surcharge and tipping setup and refund password selection. Receipts can be viewed online and even emailed to customers.
